## BW220 – 9<sup>th</sup> June 2026

### KEY METRICS

Index:	2.872 +11.2%	Total weight offered:	1,065 tonnes
Average clean price:	£2.818 per kg	Total weight sold:	1,055 tonnes
Average greasy price:	£1.852 per kg	Clearance:	99.0%

### SALE REPORT

**British Wool’s final sale of the 2025 season saw strong competition drive prices for most core types up by around 10%. The high level of demand was evident from the outset, with competitive bidding between UK processors and export customers driving the market to a new level. All core types saw price gains and just four small speciality lots were left unsold.**

The British Wool index increased by 11.2% sale on sale to reach 2.818, with the gains moving the British Wool index ahead of the New Zealand benchmark which had moved up in last week’s sale. The average greasy sale price of £1.852 per kg was 9.7% higher than in BW219. The offer included several organic certified lots which once again attracted a significant premium over the equivalent non-organic grades.

British Wool has less than 280 tonnes of the 2025 season wool clip left to sell. The majority of these lots will be offered in the first sale of the 2026 season which is scheduled for 21<sup>st</sup> July. British Wool’s intake for the 2026 clip year has got off to a relatively slow start with cold and wet weather delaying shearing this season. British Wool expects that the total offer in July will be around 1000 tonnes.

The volumes sold, clearances by wool type, and price changes in BW220 were as below. The next British Wool sale is in six weeks’ time on 21<sup>st</sup> July.

Wool type	Weight sold (Tonnes)	Clearance	Price change
